NEWEAST INTRANET MODULE

Guest Management

The Headquarters visitor path — from the first request to the gate.
A process reference for every department.

Requester | Line manager | Reception | Marketing | HR | Guard

START HERE

How to open the module

Guest Management lives on the NEWEAST Intranet. You sign in with the same account you use at work.

01

From the Intranet

Go to intranet.neweast.cloud and open Guest Management.

02

Direct link

Go to guest.neweast.cloud. Bookmark it if you raise visits often.

03

What you see

The menu shows only the desks that belong to your role. An employee does not see the guard desk.

NEWEAST
Beyond Genuine

ONE PATH · EVERY DEPARTMENT

Follow the role, not the department

Sales, Operations, Finance, HR — the steps never change. Only the person who asks changes.

Requester

Any employee. Fills the visit form.

Line manager

Approves or returns the request.

Reception

Confirms the visit, room, and driver.

Marketing

Prepares a gift, only if asked.

HR

Prepares a gate pass, only if asked.

Guard

Checks the guest in and out.

NEWEAST

THE PROCESS

Five chapters. One visit.

1	**Raise**	Requester fills date, guests, and any extra need.
2	**Approve**	Line manager reads it and decides.
3	**Prepare**	Reception, Marketing, and HR do their part.
4	**Room only**	Optional. Reception books a room with no visitor.
5	**Gate**	Guard records entry, then records exit.

CHAPTER 1 · REQUESTER

Raise a visit

Menu: Request a visit. This is the same form for every department.

1 When

Visit date and arrival time.

2 Where

Your department.

3 Who

Guest, customer, supplier, or VIP.

4 Why

A short purpose. Write it in plain words.

CHAPTER 1 · REQUESTER

Number of guests

Type how many people are coming (1 to 12). The form opens one card for each person.

Required on every card

1. Full name
2. Mobile
3. Email

Optional

Company, job title, and nationality help Reception prepare, but the request can be sent without them.

One party, one request. Do not split the same visit across two forms.

CHAPTER 1 · REQUESTER

Driver, gift, and gate pass

Ask only for what the visit needs. Each Yes creates a task for another desk.

Driver and car

Reception confirms

A car to collect or drop the guest.

Protocol gift

Marketing prepares

Choose Welcome gift, or another type from the list.

Required gate pass

HR prepares

HR issues the pass. Reception marks it done when it is in hand.

CHAPTER 1 · REQUESTER

Submit, then watch History

The request always goes to your line manager first. History is where you see what happened.

With line manager	Waiting for approval. Nothing else moves yet.
Approved · Intake	Reception has the visit and is preparing.
With Security	The party is on today’s list at the gate.
Returned	The manager asked for a change. Open it, fix it, send again.

NEWEAST
Beyond Genuine

CHAPTER 2 · LINE MANAGER

Approve the visit

1

Open Approve

Waiting requests from your team sit on this tab.

2

Read the guests

Names, purpose, date, and any extra need.

3

Decide

Approve, or return with a short comment.

Why this step exists

Reception cannot book a room, a driver, a gift, or a gate pass until you approve. A visit with no decision stays invisible at the gate.

NEWEAST
Beyond Genuine

CHAPTER 3 · RECEPTION

Prepare the visit

Menu: Intake. One inbox for every approved staff request.

1 Open the visit

Confirm the guests and the time.

2 Choose a room

Pick a free meeting room, then Confirm. Outlook books it.

3 Driver

If asked, assign the driver and mark it Done.

4 Wait on extras

Gift waits for Marketing. Gate pass waits for HR.

5 Mark received

When the gift or pass is in hand, mark it Done.

6 Submit to Security

Both guests appear on today’s list at the gate.

Gift and gate pass use the same pattern

Marketing

Menu: Gifts

1. Open Gift requests.
2. Read the visit and the gift type.
3. Approve. Status becomes Preparing.
4. Reception marks Done when it arrives.

HR

Menu: Gate passes

1. Open Gate passes.
2. Read the visit and the guests.
3. Approve. Status becomes Preparing.
4. Reception marks Done when the pass is in hand.

CHAPTER 4 · RECEPTION

Book a room with no visitor

Internal meetings do not need a visit request. Use Rooms.

1

Open Rooms. The board shows free and busy slots.

2

Click a free slot.

3

Type a subject, then Book in Outlook.

4

Add invitees on the booking card if needed.

NEWEAST
Beyond Genuine

CHAPTER 5 · GUARD

Check-in and check-out

1 Today’s list

Only visits submitted to Security appear here.

2 Find the party

Search the visit code, or read the invitation QR.

3 Check in

Open the visit. Record entry when they arrive.

4 Check out

Same visit, same desk, when they leave.
